

# BOXES AND CONTAINERS

## DATASAFE BOXES

Our DataSafe boxes are made of recyclable corrugated cardboard. Double walls, double reinforced handgrips, and a smooth, well-supported floor ensure a super strong box. They can be assembled in 10 seconds or less and don't require tape. The DataSafe carton is designed specifically for storage. Contents of one letter-size file drawer fills 1½ cartons with files stored front to back; one legal file drawer fills two DataSafe cartons with files stored side to side. We also offer storage cartons which house oversized documents, such as blueprints, architectural drawings and x-rays cartons are available for purchase in any quantity and can be delivered to you within 24 hours.

	Standard	Ledger	Small Blueprint	Large Blueprint
Height	10"	20"	3"	6"
Width:	12"	6"	3"	6"
Depth:	15"	15"	42"	42"

## STEEL CONTAINERS

We use specially designed 22-gauge steel containers to store your media. They are locked and bar coded-providing your disk packs, magnetic tapes, diskettes, CD-ROMs, cartridges, microfilm and microfiche materials with maximum protection against fire and water damage.

### DLT or LTO Containers- Large

Capacity:
